Explanation of Safe Work Method Statements (SWMS)

Red Medical does not provide standalone Safe Work Method Statements (SWMS) for release to event organisers or third parties.

Our safe work practices are integrated within our Clinical Practice Guidelines (CPGs), which govern the delivery of our services and ensure compliance with industry standards and best practices.

These guidelines, along with our Policies and Procedures, undergo rigorous review and analysis under the oversight of our Clinical Governance Committee (CGC) to maintain the highest standards of safety and effectiveness.

In certain jurisdictions, such as Victoria, our CPGs are formally reviewed and authorised by the Department of Health, further ensuring their validity and regulatory compliance.
